IVT's Data Integrity Validation conference took place August 16-17 in San Diego, CA, to provide tangible examples and gain hands-on experience for improving your processes at work. It is imperative to execute compliant practices enterprise-wide to ensure data integrity compliance today, and this was the industry's go to event to build proactive strategies to prevent and remedy data integrity non-compliance. [Click here to read the agenda.](#)

Key Topics Include:

ALCOA+ Principles
