

Get Your Medical Device to Market in 10 Easy Steps: PART 2 - Design & Development

Roberta Goode

By

Dec 19, 2019 8:00 am EST

On this episode, Stacey welcomes Roberta Goode, the founder of Goode Compliance for the second part of our 3-part series. Stacey and Roberta dive into the design and development of medical devices, with discussion on the tasks that make up the design and development phase, timing for prototypes and bench trials, the "how's" of human factors design applied to engineering medical device, critical records and documents and typical challenges when planning for packaging, labeling and product delivery, plus much more...
