

## Periodic Review of Validated Systems

By [Donncadh J. Nagle](#) Feb 25, 2019 8:13 am PST

The periodic review of validated systems in the pharmaceutical industry has come into the spotlight in recent years due to an increased focus on data integrity. A key fundamental of any pharmaceutical quality system is that companies must fully understand how their critical data is performing. Evidence suggests that most companies do have reasonable periodic review strategies in place for Computer System Validation and Process Validation. However the challenge now exists to ensure periodic review procedures also assess Equipment, Utilities, Cleaning and Analytical Method validation. This...
