

Cleaning – Where Are We Now And Where Are We Headed With Important Concept?

William Hall

By

May 26, 2013 12:22 pm EDT

Dr. Bill Hall, long time collaborator of IVT, international cleaning expert, mentor, and much honored contributor to FDA-regulated industry, was the Keynote Speaker at the IVT Cleaning Validation and Critical Cleaning Processes conference held in Chicago July 24 through 27. Because Doctor Hall is celebrating his 50th year of service as an active practitioner within Industry, he chose to illustrate the importance of cleaning concerns by highlighting their impact over the years. He looked at the past, present, and future of the important concept of pharmaceutical cleaning. Download "Cleaning –...
