

## A Deeper Dive into Excellence and Next Generation Approaches to Quality System Monitoring - A Reaction PODCAST

Jul 6, 2021 7:00 am EDT

In the last episode we opened up our discussion on [Next Generation Approaches to Quality System Monitoring](#), where we heard some insightful discussions around data governance programs and policies, understanding sources of bad data, missing data, data consistency and data integrity, as well as the speed of data delivery and defining metrics. This time we invite [Valarie King-Bailey](#) to share her thoughts on this discussion, focusing in on some key clips and information. Listen in as we take a deeper dive into the topic and provide a consultant's view of the current state of Quality Systems and the future monitoring.
