

The Digital Transformation Initiative - PODCAST

Jul 27, 2021 7:00 am EDT

In this episode we share the Digital Transformation panel discussion from the CSV conference this past spring. The panel of experts bring insights into organization-wide digital transformation initiatives, first-hand experiences of point solutions, and platform transitions, as well as lessons learned in cloud computing and cloud first approaches to migration.

Making up this session are the moderator, Dan Matlis, and esteemed panelists: Sam Cheemakoti, Paul Hurlocker and Ron Schardong. No matter where you are in the digital transformation process you will find something of interest here.
