

The EU GMP Annex 1 Revision 2022 Implementation

Mar 29, 2022 7:00 am EDT

The much-discussed revision to the EU GMP Annex 1 is expected to be published early this year, bringing some major changes to drug developers' current process and manufacturing methods for sterile products. Although the draft revision has been widely shared and commented on, it is still unclear the total impact this document may have across regulated industries. Here to share their perspective on the Annex 1 Revision document is Patrick Nieuwenhuizen from PharmaLex.
