

Foundations in Quality Risk Management

Jayet Moon

Nuala Calnan

By

Nov 16, 2021 8:00 am EST

This week, Stacey and Nuala sit down with Jayet Moon, author of "Foundations in Quality Risk Management" to review some of the key discussion points from his book and share his views on how risk management "is central to the science of prediction and decision-making;" and how "holistic and scientific risk management creates resilient organizations, which survive and thrive by being adaptable." Jayet will also explain how lobsters can live forever.
