

## Inc. 5000 Recognizes IVT Veteran and Long-time Supporter

By IVT Staff Sep 24, 2021 7:00 am EDT

On behalf of the IVT Network staff and Editorial Advisory Board, **sincere congratulations to Valarie King-Bailey and the team at OnShore Technology Group** on their recent recognition by Inc. Magazine. Valarie and her team were ranked 4171 in the magazine's annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies.

Part of the Inc. 5000 recognition came from the tremendous growth on Onshore Technology Group, racking up 1249% 3-Year Growth despite the pandemic. As the industry was forced to shift to digital solutions and pivot away from pen-and ink-based validation processes, Valarie recognized a need to hire and train new staff to meet the demand. So, putting together a pitch for the investor community, she provided a compelling story to VC's Founders First and Novel Growth and snagged the number one funding spot in the program. Needless to say, Onshore Technology Group is having a record year.

Valarie currently serves on the IVT Editorial Advisory Board and has been a past Speaker of the Year for her participation in our Validation Week and CSV Week conferences. In addition, she is a member of the American Society of Civil Engineers, Society of Women Engineers, National Girls Collaborative Project for STEM education, Regulatory Affairs Professional Society (RAPS), and a University of Wisconsin College of Civil Engineering Advisory Board Member. Valarie also received the Distinguished Alumni Award from the University of Wisconsin in both 2008 and 2010, as well as a Lifetime Achievement Award.

You can catch up with Valarie and OnShore Technology Group at the IVT Validation Week event on October 19-21, where she will once again be a featured speaker and panelist. [Read more about Valarie's role as a Women in Leadership advocate](#) or [find out more about OnShore's very deserved recognition.](#)

### **About OnShore Technology Group, Inc.**

OnShore Technology Group is a global leader in the development and delivery of Independent Validation and Verification (IV&V) products and services for global life sciences companies and government agencies. OnShore's innovative IV&V enterprise application ValidationMaster™, has been recognized across the globe as the leading Lean Validation Enterprise Validation Management and Quality System designed to streamline, optimize and accelerate Validation processes.
