

Management Roundtable #3: Lessons From Restaurant Dishwashing

Paul L. Pluta

By

Sep 24, 2021 7:00 am EDT

Management Roundtable provides quality and validation managers a mechanism to share information about how they manage their function responsibilities. This forum will address non-technical function management including contemporary personnel topics. Management topics are rarely addressed at technical professional meetings; discussion of these topic is always needed including management considerations in the virtual workplace. Topics previously addressed in this series include the following: Invitation to Participate. Journal of GXP Compliance (JGXP) Vol 25, #2, March, 2021. Respecting...
